PROTECT SUN FLOW

COMPOSITION	%w/v
Calcium (CaO ₃)	34,0
Silicon (CaSiO ₃)	5,0
pH (solution 1%)	7-8

Micronized calcium carbonate liquid

CHARACTERISTICS

PROTECT SUN FLOW is a micronized calcium carbonate liquid sunscreen and next-generation silicon, designed to provide protection to the plant and fruit during the period of growth, improving the health of the plant and eliminating sunburn.

The foliar application of **PROTECT SUN FLOW** at the defined dosage, allows to create an indirect protection of the plant and the fruits from sunburn and more generally from thermal stress. The homogeneous film that forms on the plant protects the crops from UV rays: reducing absorption and increasing the light diffusion.

APPLICATION

CROP	Application per season	Amount of formulated /Ha
Apples	3	20-30 L/Ha
Citrus	3	20 L/Ha
Tomatoes	3	20 L/Ha
Melons	2	20 L/Ha
Watermelons	2	20-30 L/Ha
Grape	3	10-20 L/Ha
Pomegranate	3	20 L/Ha
Avocado	3	20 L/Ha

ACTIONS

- *Reduces the temperature in plants and fruits by 3 - 4 °C*
- *Reduces damage from sunburn*
- *Improvement of post-harvest quality*
- *Protects against water stress*
- *Enhances the fruit color*
- *Extends post-harvest life*
- *Reduces the attack of insects*
- *Prevents mildew and oidium*
- *Easy removal in post-harvest*

CROP	Amount of water /Ha	Total season /Ha
Apples	800-1000 L/Ha	800-1000 L/Ha
Citrus	800-1000 L/Ha	800-1000 L/Ha
Tomatoes	750 L/Ha	750 L/Ha
Melons	1000 L/Ha	1000 L/Ha
Watermelons	1000 L/Ha	1000 L/Ha
Grape	1000 L/Ha	1000 L/Ha
Pomegranate	1000 L/Ha	1000 L/Ha
Avocado	1000 L/Ha	1000 L/Ha

! Shake it before use

Caution !
Avoid contact with eyes, food or drinks. Keep out reach of children. If swallowed seek medical advice. Do not store in direct sunlight. Store between 5°C and 35°C
